Sedgwick County outdoor warning sirens are tested every Monday at Noon, except Holidays and when threatening weather is present. Today we will be testing the Alert mode, for one minute. The Alert Mode is a steady tone used for Tornado warning, The Attack Mode is a classic rise and fall sound used for Air Attack Warning in times of war. Outdoor warning sirens are designed to be an early warning device primarily for persons who are outside away from the television and or radio. Remember, when the outdoor warning sirens sound, Take cover, Tune in to local media, Take action. Emergency Management officials highly recommend citizens keep a NOAA weather radio in their homes, preferably in the bedroom, with a tone alert for those times when you are not monitoring</p>	Audio Logged

CAP Server: IPAWSCAP CAP Reference ID: 200093,WENS_IPAWS_CONNECT22024719175047,2024-08-19T17:50:47-04:00 CAP Text: Due to Water Main Break the Texas Commission on Environmental Quality has required the Canadian Municipal Water System (City of Canadian) to notify all customers to boil their water prior to consumption including: washing hands and face brushing teeth drinking. Children seniors and persons with weakened immune systems are particularly vulnerable to harmful bacteria and all customers should follow these directions. To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes. In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes. When it is no longer necessary to boil the water, the public water system officials will notify customers that the water is safe for drinking water or human consumption purposes.
