The system will sound for the full 5 minutes like they would during an actual tornado warning. We urge everyone to review severe weather plans and participate by conducting an internal drill on seeking safe shelter as you would during an actual tornado. Sedgwick County outdoor warning sirens are normally tested every Monday at Noon, except Holidays, and when weather conditions are such that cloud cover obscures more than 50% of the sky or, radar shows precipitation in the area or, if the area is under a severe weather watch. The Alert Mode is a steady tone used for Tornado warning, The Attack Mode is a classic Rise and Fall sound used for Air Attack Warning in times of war. Outdoor warning sirens are designed to be an early warning device primarily for persons who are outside away from the television or radio. ZCZC-CIV-ADR-020173+0100-0611648-fromcap -	Audio Logged

The regular monthly test of the Live Audio Broadcast Segment and All-Hazard Outdoor Warning Siren System for public safety will be conducted today at 1145 AM from Emergency Management Authorities. Hawaii's warning sirens are used to alert the public to any emergency that may pose a threat to life or property. The sound of the sirens is to alert residents to turn on a radio or television for information and instruction for an impending emergency. Instruction may also be provided by a cellular Wireless Emergency Alert. Hawaii Emergency Management Officials recommends residents prepare an emergency kit of a minimum of 14 days of food, water, medical, and other essential supplies. Always be prepared.
